## CLAIMS BANKERS' CRITICISM DOES NOT REFLECT THE VIEWS OF PEOPLE

### WILSON DEFENDS CURRENCY BILL

Holds Bankers' Views Do Not Represent Nation's Sentiment.

### SENATORS ALSO TO RESCUE

Criticism of the Financiers in National Convention at Boston Come In For a Sharp Answer From Friends of the Measure in the Upper House—Bill Not To Be Made Party Measure.

Washington, Oct. 10.—A concerted defense by administration forces against the criticisms of the currency reform bill by bankers at the Boston convention of the American Bankers' association, and against what was alleged to be an organized effort to hinder its consideration and passage, served to clear the air in Washington and to inspire a new feeling of confidence in Democratic circles.

A senate debate in which the bankers' criticisms came in for sharp answer from friends of the bill on the senate floor found its echo later when President Wilson made plain to callers his own view of the recent developments surrounding the bill.

President Wilson let it be known that he did not think the views of the Boston bankers' convention, as they bore on the currency bill now before the senate, represented the general public sentiment of the country. In the president's view the attacks made on the bill by the Boston conference represented the activities of men whom he believed to be acting with sincerity, but who as individuals refused to yield their position of control of the country's financial system.

The results of the senate debate and of the later discussions by the president with visitors at the White House were to develop the following facts: That no effort will be made to make the currency bill a party measure in the senate, unless it becomes impossible to get it through in any other way; that the president believes early action on the bill is essential, while many Democratic senators will oppose any effort unduly to force the situation; that the criticism of the Boston bankers' conference has tended to solidify the Democratic ranks in support of the bill.

President Wilson told callers that time was most essential in the currency situation; that with the big accumulations of business in the autumn and early winter, business men of the country were anxious that the banking and credit question should be definitely settled at once.

While the president also took the position that the senate's currency hearings had been unduly prolonged, members of the senate in the debate on the floor of that body indicated a general satisfaction with the facts and information that had been disclosed through these hearings. They are not disposed to change their program.

### SULZER HIT HARD BY PROSECUTION

Attorneys Scathingly Denounce the New York Governor.

### PARKER LEADS THE ATTACK

Counsel For the Defense Strike Back, Contending That the Charges Against Sulzer Are Based On Passion and Prejudice—Time For Argument in the Impeachment Trial Drawing to a Close.

Albany, N. Y., Oct. 10.—The senate chamber echoed all day the declamations of Louis Marshall and Alton B. Parker, defending and denouncing the immigrant's son who struggled upward to the governorship and who text week may or may not be an outcast. The defense was a flaming picture of an honorable man, poor as Webster and McKinley were poor, helped with money as they were, striving to be a good governor, succeeding, halted by the hatred of political enemies, unreasonably impeached, marked for ruin, and savable only by the high court.

Whereas Alton B. Parker, speaking with the authority of a one-time candidate for the presidency, a former chief judge of the court of appeals, said in unmistakable phrases that William Sulzer was a perjurer and a thief and demanded a verdict of guilt on each of the impeachment articles.

The time for argument ends this evening. Judge Parker concluded his address for the impeachment managers before noon today. D. Cady Herrick of the defense followed, speaking for an hour and a half in behalf of Sulzer. The final scene before the court shuts up to consider the verdict will be ex-Senator Brackett, master of courtroom invective reciting the accusations in his own pungent way. Nobody knows when a verdict will be reached or even consideration thereof started.

Mr. Marshall impeached the motives of those who brought the charges against the governor as based on "passion and caprice," and Mr. Parker denounced the governor as one whom the "uncontradicted proofs which have been spread upon this record" showed was no longer "fit to be the chief executive of this state," and for whom it was "absolutely impossible ever to regain the confidence of the people." The governor knew, Judge Parker said, that when he signed the statement of campaign contributions placed before him by his secretary, Louis A. Sarecky, that the statement was untrue.

### MRS. CARTER INDICTED

Elyria Woman Is Charged With Misuse of the Mails.

Cleveland, O., Oct. 10.—The federal grand jury indicted Mrs. Margaret A. Carter of Elyria, O., on four counts on a charge of using the mails for furthering a scheme to defraud. She was charged with sending a letter demanding \$3,000 to Miss Lillian Huntington, Elyria heiress and daughter of W. R. Huntington. The letter is said to have threatened Miss Huntington with loss of her sweetheart unless the money was paid. Mrs. Carter was released last week on \$1,000 bail.

## THEIR DREAM FINALLY COMES TRUE, BUT FANS STAND IN LINE FOR HOURS TO GAIN ADMITTANCE

New York, Oct. 10.—As thousands of baseball fans stood in line waiting to buy tickets for the first game of the world's series there was one dream in the minds of all—the game itself. Who would win? How would the game break? Would the rain hold off long enough to permit the game to be played? Would it be Matty and Meyers versus Bender and Schang? A score of such questions were asked and answered all along the line. Though weary, these fans patiently, even happily, stood or sat in the long, twisting line until the time arrived for the gates to open.

### BANKERS TO VISIT THE WHITE HOUSE

Washington Committee Named By Boston Convention.

Boston, Oct. 10.—W. J. Bailey, former governor of Kansas, who presided over the meeting of the country bankers, laughed at the dispatches from Washington in which Senator Owen was quoted as saying that the Boston meeting was for the obvious purpose of opposing the bill, and in which he quoted a banker attending the convention as saying that the country bankers have simply been "hoodwinked."

"The remarks are utterly at variance with the facts," said Mr. Bailey. "The action taken by the country bankers was simply a spontaneous expression by them of their feelings in regard to the Glass-Owen bill. I have attended two meetings of the country bankers during the summer, and at both of them the sentiment was strongly against the proposed currency bill. This talk about the country bankers having been hoodwinked is all nonsense."

The committee appointed to represent the country bankers in Washington at a conference with Senator Owen and the others of the currency committee consists of bankers representing nearly every state in the Union.

The Washington committee organized with George W. Rogers of Arkansas as chairman, McLane Tilton of Alabama as secretary and I. Snowden Haines of New Jersey as treasurer. These three were appointed as executive committee to take charge of the

arrangements for the visit to Washington. The entire committee will meet in New York and take the congressional limited for Washington Sunday afternoon. The senate committee having the bill in charge will meet the visitors Monday. By an arrangement made with Secretary Tamm, the bankers will pay their respects to President Wilson, after which they will call upon Secretary McAdoo.

### IN ALIENATION SUIT

Charlemagne Tower, Former Ambassador, Is Made Defendant.

Philadelphia, Oct. 10.—Claiming that she was married to Charlemagne Tower, Jr., on June 7, 1911, in New Haven, Mrs. Georgeanna Tower, formerly Miss Burdick, brought suit here against Charlemagne Tower, former ambassador to Germany, for alleged alienation of her husband's affections. The woman, who is now living in this city with her mother, Mrs. George A. Burdick, declares that she does not desire pecuniary damages so much as to compel recognition by her husband and his family. She is 28 years old and formerly lived in New Haven. Young Tower is 26 and was a junior at Yale when she met him. A desire that he obtain his diploma, she says, prevented an earlier announcement of the marriage.

## UNDERWOOD OBJECTS

Washington, Oct. 10.—Oscar W. Underwood, Democratic leader of the house, returned to Washington considerably nettled at the suggestion that congressmen are proposing the repeal of the clause in the new tariff which grants a 5 per cent reduction in duty on goods imported in American vessels. Mr. Underwood said he was opposed to any tinkering with the tariff law.

### WILSON FLASHES SIGNAL

Only Barrier to Flow of Water in Panama Canal Is Blown Up.

Washington, Oct. 10.—By the pressure of an electric button at his desk in the White House at 2 p. m. today, President Wilson flashed to Panama the signal for the dynamiting of the Gamboa dike, the only remaining barrier to the flow of water through the Panama canal. The destruction of this dike will permit the waters of Gatun lake to flow freely into the Culebra cut. All steam shovel work in the cut ceased last month.

Since then tracks and steam shovels have been removed and there will be practically no more dry excavation on the Panama canal proper. The dirt which must be taken out of the cut, to the amount of about 6,000,000 cubic yards, will be removed by dredges.

## ELECTION OF BISHOP GAINING IN FAVOR

### BY OVERWHELMING VOTE

House of Deputies Favors Election of Presiding Bishop by Ballot.

New York, Oct. 10.—The house of deputies at the triennial general convention of the Protestant Episcopal church voted overwhelmingly in favor of choosing the presiding bishop of the church by election. At present this office is held by the senior bishop in order of confirmation. To become effective, this amendment to the constitution requires passage also by the house of bishops. The amendment provides that the presiding bishop shall be elected by the house of bishops, subject to the confirmation of the house of deputies. The term of the office and the salary are to be settled later.

# M. C. ORTMAN BUYS THE DAHL BLOCK ON MAIN STREET FOR \$20,000

Big Real Estate Deal Closed Yesterday Afternoon When H. B. Dahl Disposes of Valuable Business Block.

**SUBSTANTIAL STRUCTURE**  
ERECTED BY ALBERT STIMSON

Was Former Home of Craig Bros., and First Floor Is Now Occupied by Ford Hardware Store and Giebelhouse's Pool Room—No Changes to be Made by Mr. Ortman for the Present.

The biggest real estate deal taking place in this city for a long time was closed up Thursday evening when Mr. M. C. Ortman, the groceryman, through the agency of Chas. Gerstner, purchased the H. B. Dahl block on Main street, opposite the court house.

The block changing hands fronts 40 feet on Main street and extends back 165 feet to the alley. The first floors are occupied by Ford's hardware store and the Giebelhouse pool room and restaurant. In addition to the first floor the second floor extends well back, and contains a half score or more of office rooms, some of which are occupied.

The consideration mentioned is \$20,000, or at the rate of \$500 per front foot.

Albert Stimson erected the front part of the building on the lot some 41 years ago, and the structure is still regarded as one of the most substantial in the city.

When it was finished Craig Brothers occupied the room now used by the Ford hardware store, moving in to the old Odd Fellows' building some

three years later. Part of the building has been erected since the main structure was built.

For some 35 years the Herald office was on the second floor of the building. The upstairs part was remodeled a year or two ago.

The property is one of the best located in the city, and its value has been increasing for many years.

It is Mr. Ortman's intention to make no changes in the block for the present at least, and the tenants will not be disturbed.

The changeable weather of early fall brings on coughs and colds that have a weakening effect on the system, and may become chronic. Use Foley's Honey and Tar Compound. It has a very soothing and healing effect on the irritated and inflamed air passages, and will help very quickly. It is a well known family medicine that gives results. Blackmer & Tanquary. advt

## ROAD IMPROVEMENT COST DISTRIBUTED

State Highway Commissioner Jas. H. Marker has furnished Auditor Henkle with notices of the distribution of the cost of the Devalon road improvement, contracted by Kunkle, of Xenia, and the notices show the total cost of \$6,515.00 is divided up as follows:

State's share, \$3,257.50; share of Fayette county, \$1,628.75; Union township, \$152.45; Paint township, \$824.80; property owners, \$651.50.

The property owners having the most foot frontage are: J. M. Sheelcy, 1814 feet; Dora Eggleston, 3427 feet; Jas. Whiteside, 3427 feet.

## "CY" WILL HELP PAVE THE ALLEYS

An old offender in the local police courts, Cy Bainter, who was picked up a few nights ago while intoxicated and who is alleged to have tried to obtain money under false pretenses by endeavoring to collect a bill for eggs which had never been sold to the man from whom he tried to collect, was released Thursday evening after a fine of \$25 and the costs have been assessed, and promised to "pay up" at the rate of \$2.50 per week.

Bainter was steered toward the alley paving contractor who gave him a job, and he agreed to work out his fine here instead of making brooms in the Xenia "broom factory".

## AUTO ONCE MORE TAKES THE DITCH

J. V. Metzger, who, in company with three other men was injured when his touring car left the road near Bookwalter and turned upside-down in the ditch a few weeks ago, figured in a similar accident near Spring Valley this week.

Mr. Metzger and three men, all of whom reside in Wilmington, was in the act of passing a rig while going at good speed, and in the dust the auto skidded, the outer wheels dropped over the embankment, and an instant later the men were piled up on the embankment with the auto in the ditch.

Both escapes were miraculous.

## Keep Looking Young

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young—is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle.

Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. The Olive Tablet Company, Columbus, Ohio. adv

## An Order for Health and Comfort

The Board of Health has taken hold of the matter of burning leaves, agitated annually, to the satisfaction of the general public by giving notice in the last two issues of the Daily Herald that residents will be permitted to burn leaves only between the hours of 10 a. m. and 2 p. m.

Each fall the beautiful month of October is marred by the pall of heavy smoke which hangs over our town, not only detracting from its beauty, but also aggravating catarrhal and bronchial troubles and being largely responsible for the influenza and colds which few escape. Hay fever sufferers return from enforced summer sojourns to find conditions that threaten the return of their special affliction. Even those who manage to avoid acute disease find the atmosphere heavy and breathe in the smoky air with great discomfort.

The Board of Health has taken a big step towards lessening this discomfort by ordering that leaves be burned only in mid-day, when stiffer breezes and sunshine seem to carry the smoke away more readily, and the atmosphere is cleared before night falls.

In the calm of the evening the smoke seems to hover low and fill the streets like a fog, making driving a dangerous pastime and filling homes with the murky air to be breathed all through the night.

For the past week all over town, heaps of dry leaves, and they are most awfully dry just now, have responded to the light of the match by bursting into flame and sending up thick clouds of smoke. They smoulder and glow picturesquely in the darkness, but there are few citizens who would not willingly forego the fantastic effect of the burning piles for the comfort of purer air.

To be sure leaves must be disposed of and other methods than burning are so difficult that they will probably be burned for many autumns to come.

People burning their leaves have no wish to inconvenience or annoy; their sole aim is to get rid of the leaves the easiest way.

The longer we live the more we realize that few people really intend to be mean—they may be thoughtless and busy, and consequently acts not contemplated lead to misery for others, but few viciously intend to injure those around them.

Two things of the utmost importance to a community are health and comfort. Whenever the public realizes that the enforcement of a law means just this—added health and increased comfort—public sentiment sways towards the support of that law.

This order of the Board of Health is a good one. Let it be enforced.

## Poetry For Today

### LOVE BESIDE THE FIRE.

The pride of autumn fades away on wooded vale and hill.  
The days are growing grayer and the nights are growing chill,  
Then, hey for home, and happy eyes, and joys that never tire!  
Well face the worst that winter brings, with love beside the fire!  
Oh, sweet as youth the springtime was, and fair were summer's bowers,  
And gayly glowed the pageantry of autumn's golden hours!  
With sadness from the hills we saw their sunlit days retire,  
But winter brings us back again to love beside the fire!  
So bolt the door against the blast, and start the cheerful blaze,  
And let us sit sweetheart of mine, and talk of olden days,  
Of days when first you woke in me the dream of young desire,  
When yet I hardly dared to hope for love beside the fire!  
—New York Sun.

## LOCALS WILL MEET THE BLANCHESTRIANS

Saturday afternoon on the local gridiron the Washington High School Football team will meet the Blanche High School team, and with the genuine work the local boys have been doing this week and some changes in the line-up, Blanche is expected to fall easy prey to the Washington boys.

Considerable local interest centers on the game, and a goodly crowd of rooters will cheer the local boys to victory.

### ITCHING HUMORS.

There is Now a Way to Escape These Skin Torments.

Try This Remedy at Our Risk. People sometimes say, "Well, that new remedy of yours, Saxo Salve, may cure recent cases of eczema, but I doubt if it will help me for I have had eczema a long time."

The fact is, Saxo Salve was devised as much for chronic skin trouble as for acute cases, and it is equally effective, though usually the chronic cases are more stubborn.

Numbers of cases right around here could be cited, showing that Saxo Salve is exactly the remarkable soothing and curative remedy for skin diseases that we claim.

The itching is stopped in a few moments after the first application, and improvement is seen in a few days.

All humors and disorders of the skin, whether scaly, crusted or in the very first stages, usually yield to Saxo Salve promptly. If it does not, in your case your money will be returned. Blackmer & Tanquary, Druggists, Washington C. H., Ohio.

## INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

It is said that farmers near Blittmore, the great Vanderbilt estate in North Carolina, think that Mr. Vanderbilt has purposely instituted competition among them by leading the way in farm products of a very high standard. While it is reported that he can sell all the milk and butter he can produce at higher prices than other producers, some of his neighbors are now close to him, having learned methods and processes and especially cleanliness from the example set on his farm of 5000 acres.

The tomato special is a train loaded with the fruit that runs from the silver creek district of New York state to a big preserving plant at Pittsburgh, Pa. On a train that went through recently there were 35 cars bearing 15,000 bushels of tomatoes.

One interesting development in connection with the phonograph is the fact that some famous singers and players are receiving royalties from the records they have made as much as \$50,000 a year. This income at least in the case of the great artists, is likely to continue for years to come, as the very fact that they have retired from the stage makes the opportunity to hear them in the phonograph all the more a thing to be desired.

Reports declare California in the midst of a fairly profitable, though sub-normal harvest. As shortage in the supply of both canned and dried fruits becomes more apparent, the market becomes more brisk and prices are advancing. Experts estimate yield of raisins at hardly more than 50 per cent of last year's crop. Output of prunes, dried apricots and peaches will also fall below early expectations. Walnuts will yield exceptionally well—perhaps 2000 tons in excess of last year, bringing more than \$4,000,000 to the growers. Hop growers have large crop and high prices. Beans and olives are doing more than reasonably well. This year the state has 333,564 acres planted in vineyards, compared with 279,000 acres in 1910.

Based on the allotment of spaces for the automobile shows to be held in New York city and Chicago, during the coming winter, these two exhibits will be the largest and most complete automobile exhibits ever held in either of the two big cities. The New York show will be held in the Grand Central Palace next January with the Chicago show taking place in the Coliseum and Armory later in the same month. At the Chicago show over 100 different machines will be shown, a record number.

The liner Vandyke, which brought to New York 1800 tons of Argentine beef last week sailed Saturday for Buenos Ayres carrying in the same cold storage compartments 300 tons of New England apples. These apples will sell on the Buenos Ayres market at not less than 20c each.

Pop corn for breakfast is Uncle Sam's latest advice. Specialists declare popcorn is superior, when properly prepared for the table, to many of the breakfast foods now on the market. An outlay of about \$1 or \$1.50 for raw material these experts say, will suffice, as this amount of corn can be grown on a plot 20 feet by 40 feet. In Farmers' Bulletin just issued, the experts tell how to grow popcorn and how to make it into toothsome breakfast dishes.

## Man Never Fed As Well as He Is at Present

Now Eating Better Foods

He Can Buy More Wheat

By Dr. HARVEY W. WILEY, Formerly Chief Chemist of the United States

THERE NEVER WAS A TIME WHEN MAN WAS SO WELL FED AS AT THE PRESENT. WE DO NOT HAVE TO LOOK FAR TO SEE THE CAUSES OF THE INCREASED COST OF FOOD.

First, people are EATING BETTER FOODS than ever before, and, second, the purchasing medium—namely, gold—is relatively far MORE ABUNDANT than ever before; hence the quantity of food it will purchase is decidedly less. The great staples, the cereals, however, are not as expensive at the present time as during the past.

FOR A DAY'S LABOR A MAN CAN BUY MORE WHEAT than he could twenty-five or fifty years ago. It is the part of scientific nutrition as well as social economy to increase the quantity of cereals in our foods and to diminish those nutriment which are of less necessity and of increasingly higher price.

To my mind, it seems the most important factor of the day is to CHECK THE AGGREGATION OF MEN IN THE CITIES and to encourage the distribution of the great industries where men are employed.

The saloon has no compelling attraction for the laboring man who, after his eight hours of work, has EIGHT HOURS FOR HIS FLOWER AND VEGETABLE GARDEN. If our productive industries in a manufacturing line were properly distributed the alcohol evil would be robbed of most of its terrors.

The unfortunate condition now exists of providing so called FRESH FOODS in an advanced state of staleness and of providing foods which should be properly aged in an IMMATURE STATE. The cured ham is ready for distribution within three weeks of slaughter, and the four-year-old whisky is made in forty seconds.

### Some Circulation!

YOU wouldn't believe it—no one does until he learns by actual experience—that the circulation of hot air produced by the "little furnace" in the Estate Hot Storm is as powerful as you find in the ordinary furnace.

But just try to hold your hand over the discharge ports of an Estate Hot Storm when it's fired up full, and you'll be quickly convinced.

### Estate Hot Storm

—the heating stove with a "little furnace" in it

works like a furnace because it's built like one. Air drawn into the "little furnace" through pipes on both sides of the stove, is heated to a very high temperature, and then discharged from the top of the stove, either into the room in which the stove sets, or into a pipe to conduct the heat to the upper floor.

This distinctive feature of the Estate Hot Storm's construction should be reason enough for you to give this stove the preference, but there are other reasons almost equally important. The Estate Patented Jointless Ash Box insures perfect fire control throughout the life of the stove; the Estate Tubular Hot Blast Attachment gets out of the fuel every atom of heat that's in it; the Estate Double Strength Single Fire Pot, Estate Patented Anti-Buckling Ring, etc., all contribute to make the Estate Hot Storm the strongest, longest-lived, most powerful and economical heater that has ever been built.

Make up your mind to "Own an Estate" this season and make it an Estate Hot Storm—the stove with a "little furnace" in it. We'll be glad to explain the construction to you at any time.

# REV. WILLIAM B. GAGE FORMALLY INSTALLED AS PASTOR OF FIRST PRESBYTERIAN CHURCH LAST NIGHT

Brilliant Installation Sermon by Rev. Wm. C. Stinson, of Chillicothe, a Feature of the Impressive Ceremonies.

LOCAL CHURCH WAS FOUNDED  
JUST 100 YEARS AGO TODAY.

Large Audience Attends Ceremonies Last Night and the Charge to New Pastor Was Delivered by Rev. McWilliams of Wilmington, While Rev. Moore, of Bloomingburg, Charges the People.

Seldom in the history of the First Presbyterian church, of this city, have there been witnessed services of

hundredth anniversary coming as it did at such a singularly opportune time and lending added solemnity to the installation services.

It was difficult for the audience sitting in this tasteful modern church its pulpit, platform and chancel massed with palms and great bunches of scarlet salvia, to adjust itself in a backward glance to the primitive church which held its first little audience just one hundred years ago.

Thursday night all the modern accessories of artistic decoration, beautiful music and perfect arrangement lent themselves to the installation of a pastor who possesses the gift of oratory, earnest zeal, broad understanding and heartsome personality in rare combination, and whose pastorate promises much to the church and its membership.

Mrs. Lillie G. Davis prefaced the services with a beautiful organ solo, followed by the doxology and open-

text I. Cor., 1st ch., 2 v. The minister treated the church as the kingdom of God realized and that kingdom the goal after which the church is ever seeking. He held up sanctification for the sake of service to the fulfillment of God's wonders and to the sublime task of redemption. It is this attribute of service which consecrates the church and raises it above all theological sophistries of the day.

Rev. Stinson said: "The church is not a lecture platform, not an ecclesiastical millinery shop or a baptized social world; it is a place where God meets his people. It is a house of prayer, not for noisy irreverence, tramping of feet or clatter of tongues. Today there is an impoverished conception of God. The popular God is not a great God nor can he make a great race. The mind enervating air of our modern liberalism, needs the tonic of the salt of Calvinism. This day completes a century of work closed, another century opened. What a brilliant retrospect we can review! What a glorious prospect looms up before us—a wonderful future. God has given this church splendid resources, great powers, unusual opportunities, and I dare to say to your pastor, 'speak thou to thy people that they go forward!'"

At the close of the sermon Dr. Stinson formally installed Rev. Gage, pastor of the church.

The charge to the pastor was delivered by Rev. J. L. McWilliams, of Wilmington, who so ably filled the Presbyterian church in its vacancy. The charge was particularly happy and fitting.

Rev. McWilliams impressed the significance of the occasion "the church, which for four centuries has stood for a great system of thought, was organized in this place October 16, 1813, and when tomorrow morning Rev. Wm. B. Gage begins his work as installed pastor of this church, he will also begin the second century of local Presbyterianism."

The charge to the people delivered by Rev. Frances M. Moore, of Bloomingburg, was excellent, closing with a few positive instructions which, it followed, will do much to sustain harmonious relations between pastor and people.

After the benediction many outside, as well as members of the congregation, gave cordial welcome to the new pastor, and there was an informal reception for half an hour.

## BRIEF CHURCH HISTORY.

The First Presbyterian church of Washington C. H., was organized, October 16, 1813, following a petition sent April 1st, 1812, to the Chillicothe Presbytery from "some of the inhabitants of Fayette county desiring to be known by the name of Washington congregation."

In December, 1816, a society for educating young men for the ministry was formed and in 1818, April 8th, the Bloomingburg congregation was separated from the Washington congregation by Presbytery.

In 1835 the first church edifice was erected, a square brick building on the present site, the corner of Hinde and Market, but built right on the street, with no grounds. Mr. Jas. N. Wilson, father of Jos. N. Wilson, and a ruling elder, donated one-third of the lot. Another of those early elders was Mr. James Allen, father of Mrs. Amos Thornton. One quaint old church had the pulpit between the two front doors, the floor inclined up, and the entering congregation facing the pulpit.

The second church edifice was erected in 1856 and was damaged in the cyclone of 1885.

The third, and present church building was dedicated June 8th, 1899, and in 1894 the East End Chapel, branch of the church, was dedicated.

The Woman's Temperance Crusade was one of the important movements organized in this church December 25, 1874.

Ministers of the church, 1810-1815, Samuel Baldrige, 1815-17, James Dickey, 1819-23, Wm. Dickey, 1823-35, Records missing, 1835-40, John C. Eastman, 1840-49, pulpit supplied by James Dunlap and others; 1849-59, James G. Hopkins, 1857-66, Samuel J. Miller, 1867-84, George Carpenter, 1884-92, Samuel B. Alder, son, 1892-1905, James L. McNair, 1905-19, David H. Jones, 1910-12, Wm. I. Campbell, 1912, Wm. Boynton Gage.

Henry A. Johnston, a business man of L'Anse, Mich., writes: "For years Foley's Honey and Tar Compound for coughs and colds has been our family medicine. We give it to our children, who like it on account of its pleasant taste. It is a safe cure for coughs and colds." It contains no opiates. Black-river & Tanquary, advt.

## FARMERS' PICNIC CLOSES SUCCESSFULLY

The Farmers' Picnic and Field Day, at the Fayette county fair grounds Thursday, under the auspices of the local Odd Fellows passed off splendidly, the races brought to a close just as a brilliant sunset terminated an ideal Indian summer day.

Races had been spirited, holding the crowd in the grand stand to the last. The music proved another drawing card and the social picnic features of the day all that had been expected.

Distinctive in their interest were the addresses given by Prof. Walter McCoy, son of Mr. and Mrs. Mart L. McCoy, now Indiana county agent under the agricultural extension department of Purdue University, located at Greensburg, Ind., Prof. Price dean of Agricultural college of the O. S. U., and a member of the Agricultural department and Prof. Grahman, superintendent of Agricultural Extension department, O. S. U. Mr. McCoy made an excellent talk, giving insight into the experiences of an agricultural agent and comparing methods of farming between the Hoosier and the Buckeye states.

Mr. McCoy said that Ohio corn raisers will have to get in the corn show ring by raising rougher corn, if they wish to win out. The world's ten champion ears of corn, raised by Chas. Short, of Greensburg, Ind., taking grand champion sweepstakes in Indiana, Central Zone and the United States, were exhibited by Mr. McCoy and aroused great interest among visiting agriculturists.

The subjects of seedling, testing, balancing rations, building up run down farms, drainage, etc., were all included in Mr. McCoy's discussion.

The speaker held up for emulation the Indiana method of sowing wheat in the standing corn with a horse drill, breaking down the stalks and rolling the clover, so that heads may be clipped and the clover go back to fertilizer.

For every silo in Ohio, Mr. McCoy says that there are three in Indiana. Prof. Price discussed the "Federation of the State to Agriculture and the Policy of the State Agricultural Commission." In a vein both instructive and entertaining.

He warmly advocated the establishing of county agricultural agents and county experiment farms, and advised Fayette county farmers to organize, and petition for the establishing of a county farm in this county so that it may be voted on at the November election a year from this November.

The suggestion was made that the County Infirmary farm might be utilized for this purpose and Prof. Price said this might be possible providing 100 or more acres were set apart for the exclusive use of the County Experiment farm.

A pleasing speaker, Prof. Grahman held the attention between heats treating of the lines of general agricultural education and the broader field of cultural education.

Education must be for avocation as well as vocation. Attention must be given to the cultivating of the finer side of life as well as the dollar and cent side. Prof. Grahman pressed home this idea forcefully.

FIRST PRESBYTERIAN CHURCH.

The local Presbyterian society was founded just 100 years ago today, and its present home, located on the corner of Market and Hinde streets, is shown above.

such dominant importance as well as big scripture reading and prayer by of impressive dignity and beauty as Rev. P. J. Hennessy, D. D. those which formally installed Rev. Wm. C. Stinson, pastor of the church on Thursday night.

Rev. Gage entered upon his pastorate on the eve of the centennial anniversary of the First Presbyterian church of Washington C. H., and of significant bearing upon this notable occasion was the fact that his great grandfather, Rev. Wm. Gage, was for many years one of the prominent ministers of the Chillicothe Presbytery and to the grandson falls the inheritance of a church splendidly built up upon a strong foundation.

Upon the large audience congregation for the installation ceremonies there fell the impressiveness of the history of a Sanctified Church.

# SINGIN' SKULE

Under Auspices of the Loyal Daughters  
S. S. Class of the Christian Church

**TUESDAY NITE, OCT. 14**

MEMORIAL HALL, 7:30 o'clock

A REGULAR SIDE SPLITTER

That is what the "Singin' Skule" is and the ladies of the Christian Church propose furnishing more laughs to the square inch Tuesday nite than has been enjoyed in Washington C. H. in many a day. The "Singin' Skule" is just a conglomeration of everything that is calculated to make people laugh and forget their business cares. It is like a six ring circus and when the fun gets strated, as it does when the curtain rises, it never stops until the final number has been rendered.
